1 Assignment 02: Evaluate the FDNY Dataset

The comments/sections provided are your cues to perform the assignment. You don't need to limit yourself to the number of rows/cells provided. You can add additional rows in each section to add more lines of code.

If at any point in time you need help on solving this assignment, view our demo video to understand the different steps of the code.

Happy coding!

1: View and import the dataset

```
[1]: #Import the required libraries
import pandas as pd
```

```
[2]: #Import the Fire Department of New York City (FDNY) file
df_fdny_dataset = pd.read_csv("./FDNY.csv")
```

2: Analyze the dataset

```
[3]: #View the content of the data
df_fdny_dataset.describe
```

```
